1**2****3****4****5**

To set the stamp wheels ⇒ Fig. **1 + 2**

- ▶ Press the handle **(A)** to the bottom of its travel, then while still holding it.
- ▶ Press bolt **(B)** at the bottom end of the handle.
- ▶ Guide the handle **(A)** upwards until the handle snaps into a depression.
- ▶ You will be able to move the stamp wheels **(D)** freely with the stylus **(C)**.

You can lower the preceding zeros!

Example:	49	instead of	000049
-----------------	----	------------	--------

- ▶ Turn the stamp wheel **(D)** with stylus **(C)** to digit position "0".
- ▶ Using stylus **(C)** rotate and push down on stamp wheel **(D)** through a half digit position until it sinks below print height.
- ▶ To return to the print position, simply push bolt **(B)** in the middle of the handle **(A)**.

- ▶ Any wheel which has been 'sunk' will automatically be brought to print height as the numbering sequence progresses. 'Sunk' wheels can be brought into play by simply rotating them further (ie. push towards figure 1.).

To insert the inkpad ⇒ Fig. **1 + 3**

Handle with caution to avoid dirt from ink!

- ▶ Press the handle **(A)** to the bottom of its travel, then, while still holding it.
- ▶ Press the button **(B)** on the front plate and continue to hold it.
- ▶ Allow the handle **(A)** to move upwards until the handle locks in place.

- ▶ Unpack the inkpad carefully.
- ▶ Insert the inkpad in the slot **(E)** of the stamp up to the limit stop and fasten with the screws of the inkpad.
- ▶ Resting the back of the ink pad inside the pad cradle slide the pad into the slot **(E)** of the stamp.
- ▶ In order to return to the starting position, hold handle **(A)** and push bolt **(B)** in the middle.

To change the numbering actions ⇒ Fig. **4**

Actions	
0	The same number is stamped every time.
1	Number increases after each stamping process.
2	Number increases after every 2 nd stamping process.
	etc.

- ▶ Loosen the screw **(F)**.
- ▶ Raise the automatic **(H)** and place the slide **(G)** at the desired interval.
- ▶ Tighten the screw **(F)**.

To park the stamp ⇒ Fig. **5**

To prolong the life of the inkpad, park the stamp!

- ▶ Press the bolt **(B)** at the bottom end of the handle and then keep pressing it.
- ▶ Gently push handle **(A)** downwards until the stamp clicks & locks in a raised position.
- ▶ To return to the starting position, hold handle **(A)** and push bolt **(B)** in the middle.
